

Information for Phase 1 MHSM Stewards – Filing the Annual 2009 MHSM Steward’s Report

Stewardship Ontario advises Stewards to begin with “Solvents in Aerosols”, before entering your data for “Flammable-Solvents”

Material Category	What information do I need to pull together to file in March?	What do I need to do when I file?	How will I do it?	Notes
<p>Aerosols: Solvents in Aerosols e.g., lubricating solvents, DIY products, etc.</p>	<p>Of the total amount of solvents you sold in 2009:</p> <ul style="list-style-type: none"> estimate what percentage was contained in aerosols. 	<p>Enter that percentage in the appropriate location on the online system.</p>	<ol style="list-style-type: none"> Log onto the new system Navigate to Annual 2009 MHSM Steward’s Report Navigate to Aerosols: Solvents in Aerosols System will be pre-populated with your 2009 Solvent quantities in LITRES You then have two options: <ol style="list-style-type: none"> Automated: <ul style="list-style-type: none"> Indicate <i>what percentage of your 2009 Solvents were contained in Aerosols</i> The system will use this data to calculate your quantities of “Solvents in Aerosols” in LITRES The system will then convert the LITRES to number of UNITS The system will also populate the “Flammable-Solvents” sub-category with your remaining solvents in LITRES Manual: <ul style="list-style-type: none"> Override the system and manually input your sales data for “Solvents in Aerosols” in UNITS Manually input your sales data for the “Flammable-Solvents” sub-category in LITRES 	<ul style="list-style-type: none"> Under Phase 1, stewards report Solvents as a unique category in LITRES Under the consolidated plan, Solvents are a sub-category of both the Aerosol category and the Flammables category For expanded definition please see consolidated MHSW Rules <p>2. For expanded definition please see consolidated MHSW Rules</p> <ul style="list-style-type: none"> “Solvents in Aerosols” are reported in UNITS “Flammable-Solvents” are reported in LITRES <p>Solution:</p> <ul style="list-style-type: none"> System will convert <u>litres – units</u> using a factor of .32 <p>Additional Information:</p> <ul style="list-style-type: none"> To help you prepare, Stewardship Ontario has provided an example (<i>see below</i>) to illustrate how to calculate your sales data

Information for Phase 1 MHSM Stewards – Filing the Annual 2009 MHSM Steward’s Report

Example for Solvents in Aerosols

A steward reported 1000 litres of Phase 1 solvents in 2009

Reported sales of Phase 1 Solvents = 1000 litres

Approx. % of Solvents in Aerosols = 70%

System Calculation #1: $1000 \times 70\%$

Approximate Solvents in Aerosols = 700 litres

Process 1:

Conversion required from Litres to Units

System calculation #2: $700 \text{ litres} \div 0.32$

Total sales of Solvents in Aerosols = 2,188 units

Process 2:

Remaining Flammable – Solvents = 300 litres
