# Blue Box Program Plan Review for 2007 Description of the Process and Timeline

### Introduction

This paper describes the purpose of the Blue Box Program Plan (BBPP) and Stewards' Funding Formula Review and how the review will be conducted. It also presents key dates and a broad timeline for the review.

The current Stewardship Ontario funding formula has been used for setting fees for the first four program years of the BBPP, the period of 2003 through 2006. While minor modifications to the Plan Rules have been implemented within the BBPP during this period, other ideas for major modification of the current funding formula have been suggested by some stakeholders. The Stewardship Ontario Board of Directors has agreed to undertake such a review prior to setting fees for 2007.

### **Objective of Review**

The objective of this review is to provide an opportunity for affected stakeholders to assess the current approved funding formula and to consider whether potential modifications or alternative approaches better achieve the goals of the BBPP and the policy objectives and legal requirements of the Waste Diversion Act (WDA). It is intended that this review be open, comprehensive, fair and transparent.

The review will result in a recommendation of a preferred funding methodology to the Board of Directors of Stewardship Ontario and to Waste Diversion Ontario (WDO) prior to setting the 2007 fees.

It should be emphasized that this is a review of the stewards' funding formula and related aspects of the BBPP within the context of the WDA. A review of the WDA itself is outside of the scope of this review. The review must be completed in time for the annual fee-setting cycle if the results are to be incorporated into the Stewards fees for 2007. Any modification approved by the Stewardship Ontario Board and the Minister would be used to calculate the 2007 fees. If options identified require further data and analysis which cannot be accomplished within the 2007 fee-setting cycle, then the work can be carried forward and considered for subsequent fee setting.

### **Steering Committee**

A Blue Box Program Plan Review Steering Committee (SC) comprised of Stewardship Ontario Board members Lyle Clarke (LCBO) and Neil Antymis (PBG) has been directed by the Stewardship Ontario Board to oversee this review process. The Steering Committee will ensure key stakeholder concerns and suggestions are heard, accurately reflect these to the Stewardship Ontario Board and make recommendations to the Stewardship Ontario Board.

### **Advisory Committee**

A Blue Box Program Plan Review Advisory Committee (AC) has been established to provide input to the work of the Steering Committee. The Advisory Committee will identify options for consideration, bring up key issues of concern to their constituency and encourage participation in the consultation program. As such, the committee includes representation from a broad crosssection of stakeholders. It is composed of stewards including the largest contributors, those without representation on the Stewardship Ontario Board, those who are knowledgeable about the BBPP, those who represent a range of options, as well as non-steward stakeholders. The Advisory Committee is chaired by the Board members on the Steering Committee. A list of Advisory Committee members is provided in Appendix A.

## Proposed Changes to the Current Funding Formula

All proposed changes to the funding formula will be considered in relation to how the modified BBPP would comply with the WDA, whether the modifications would meet the objectives of the BBPP and whether the changes taken together achieve an appropriate balance among the principles of the review and the potential benefits to stewards. Any options outlined in the discussion paper and any others proposed during the course of the review will be considered in this way.

A summary of the review of options and recommendations on potential alternatives or improvements to the existing funding formula will be made by the Steering Committee to the Stewardship Ontario Board for consideration.

In developing its recommendations, the Steering Committee will analyze each option carried forward in the review to determine the effect on the distribution of fees by material and by stewards. Information is required on how the option would be implemented and how any criteria on which it is based would be defined, measured and reported in order for Stewardship Ontario to analyze and model the impact on materials and stewards. Proponents of each alternative will be asked to provide Stewardship Ontario with as much detail as possible in order for Stewardship Ontario to understand and analyze the option against the principles of the review.

### **Key Dates**

The following is a brief description of the workplan identifying key dates and information requirements.

Workplan	Key Date	
1 <sup>st</sup> Advisory Committee meeting	October 27	
The AC was asked to identify possible modifications and alternatives to the funding formula. After establishing a set of principles to guide the review, the AC short listed options that were considered to be within the scope of the review. The committee was also asked to provide input on the key elements of the draft discussion paper on the funding formula review for circulation to stakeholders prior to the first public consultation meeting.		
Stewardship Ontario Board meeting	October 31	
The Stewardship Ontario Board reviewed the input from the 1 <sup>st</sup> Advisory Committee meeting and		
decided which options were within the scope of the review and were to be carried forward. It also reviewed plans for the consultation process.		
Information package circulated	November 22	
The information package comprises the discussion paper which describes the purpose of the Blue Box Program Plan and steward funding formula review and it identifies the options that to date have been suggested by stakeholders to modify or replace the current funding formula.		
This companion document describes how the review will be conducted and the key dates and broad timeline.

### **Next Steps**

#### SUBMIT NEW IDEAS

Stewardship Ontario would strongly encourage stakeholders with additional practical ideas to notify us by **December 1** and provide a detailed description. Please forward all suggestions to **info@stewardshipontario.ca**. The Steering Committee will assess whether they are within the scope of the review and if so, they will be added to the agenda for the December 8 public consultation. Stewardship Ontario may contact the proponent for clarification before the consultation.

#### **REGISTER FOR DECEMBER 8 CONSULTATION**

To **register** visit: **www.stewardshipontario.ca/register.htm** Though the consultation proceedings will be webcast, it is strongly recommended that participants plan to attend in person in order to benefit fully from the presentations and discussions that will take place on these important topics.

#### CONFERENCE CALL TO CLARIFY INFORMATION – NOVEMBER 29

Guy Perry of Stewardship Ontario will be available on a conference line between **10:00AM and 11:00AM** to answer any questions of clarification about the information presented in the discussion paper and about the process.

Please forward any questions to info@stewardshipontario.ca **before noon of November 28** to allow time to compile information that might not be readily at hand.

Local dial: 416-204-1403

Long distance dial: 1-866-613-5220

Participant passcode: 2024266#

### PREPARE AND SUBMIT INFORMATION TO EVALUATE OPTIONS

Proponents of proposed changes are encouraged to prepare information needed to evaluate options as soon as possible and no later than December 22 in order that Stewardship Ontario can model the affects on fees and assess the feasibility.

Please forward all information to info@stewardshipontario.ca.

Required information:

- 1. A concise description of the option
- 2. The anticipated benefits
- 3. A description of how the option would work in practice
- 4. Define criteria on which it is based and how they would be measured and reported.
